W. M. C. Graduate, Dr. Fox, Certified As Brain Surgeon

Dr. J. DeWitt Fox, a 1944 graduate of Washington Missionary College and currently editor of "Life and Health" magazine has successfully passed examination of the American Board of Neurological Surgery taken at Yale University. Dr. Fox has moved into a new office in his home town of Glendale, Calif., but continues to do his editorial work for the church's health publication.

Active in neurological circles, Dr. Fox recently read a paper on some original research, using human freeze—dried dura the covering of the brain. A "Tidy" Problem

Red Dolan dropped by the Widow Parker's last week to drive her to the depot. She was leaving on her annual month-long visit with her sister.

"Land sakes the folks in this town are nice," she said. "You're the fourth person that's offered me a ride today and I've already arranged to ride with Mrs. Phillips. But, Red, there is one thing you can do for me."

"You name it," says Red. "Well," she replied, "in some diplomatic way would you let my nice friends know they won't do me a favor if they come in and house-clean for me. They did last year and it took me three days to get things back to rights."

From where I sit, some folks start out with good intentions and end up interfering. We may not agree with the way our friends fix up their homes and they may not agree with our preference for beer with meals. But these are choices we each have a right to make. Respect for them is the biggest "favor" of all.
